My name is Kylee McKinney, and I am an interdisciplinary artist and designer with experience across fine arts, graphic design, community engagement, and collaborative creative projects. My work spans studio practice, visual communication, exhibition-related projects, educational environments, and client-driven design, allowing me to approach each assignment with both conceptual depth and practical problem-solving.

I bring a broad and adaptable skill set that includes project planning, research-based creative development, digital and traditional media, branding and layout, and clear professional communication. I am comfortable working independently or within collaborative teams, managing timelines, responding thoughtfully to feedback, and guiding a project from concept through final execution.

Across my work, I prioritize clarity, organization, and responsiveness. I value process as much as outcome, and I am committed to producing work that is intentional, inclusive, and aligned with the goals of the organizations and partners I collaborate with.

I welcome opportunities to contribute to creative teams, support institutional initiatives, and take on projects that benefit from both artistic sensitivity and professional rigor. If my background and portfolio resonate with your needs, I would be glad to discuss how I can contribute to your program, organization, or project.

Thank you for your consideration.

Best Regards,

**Kylee McKinney**
